Description :

Prsentation de l'diteur "A Cautionary Tale of Epic Proportions" The Norwegian Death changed the world forever, but that was just the beginning of Humanitys problems. Decades later, the children of the survivors find themselves unable to conceive, with complex and expensive fertility treatment the only option. Some can afford it, but for everyone else, there is the In Vitro Lottery. Kate Adams never really wanted a family, so when her numbers come up for treatment at the clinic, she gives her winning ticket to her sister, Emily. Then tragedy strikes, and Kate is sent on a collision course with the clinic head Victor Pearson, and the Government, in her quest for answers. When Kate's investigation reveals devastating truths about her sister, she is drawn towards the pressure group IVFree and begins to question everything she believes in. Together, they formulate a plan to get answers and to uncover the real purpose behind the Lottery. When the fate of

Humanity is at stake, who really controls the future, and what will they do to protect it? New Apple Summer e-Book Awards 2016 winner in SciFi / Dystopia "Thought provoking, scarily believable and compelling."
